Suamico Origin of Name...

"The Indian name Oussumigong, now spelled Suamico, has several disputed meanings. Father Chrysostom Verwyst explains the meaning as meaning 'place of the yellow beaver.' Father Jones as, 'at the beaver's tale.' Rev. E.P. Wheeler of Ashland, whose study of the Wisconsin Indians has made him an authority says it means 'yellow residence place.' It has also been accepted that it means 'point or tail of land', or 'the beaver's tail', which suits us best." [Source: Card file at the Wisconsin Historical Society Library Reference Desk]

CLIMATE

While Green Bay is often described as the frozen tundra, residents know that the overall climate is more temperate with its variability and distinctive weather patterns across the seasons. Extended periods of humid or subzero temperatures are uncommon due to the moderating effect of Lake Michigan so close by.

Well-seasoned Wisconsinites surprise newcomers with their ability to continue "business as usual" in the bad weather. Only in the most severe cases does the weather impact business.

Honoring our Past, Present and our Future

ONEIDA
A good mind. A good heart. A strong fire.

September 23, 2022 marked the 200th anniversary of the 1822 Treaty, which established the land base for Oneida, on what was then the Michigan territory, in Wisconsin. To acknowledge this significant event, we honor all those who came before us and all those who helped us become what we are today. We feel especially blessed and privileged to recognize the contributions from the Ho-Chunk and Menominee Nations.

Chess Makes Kids Smart

There isn't much negative to say about chess. It is an inexpensive game, a great opportunity for socialization among many different age groups and levels. It forces students to slow down, concentrate, use precise thinking, active both inductive and deductive reasoning, as well as recognizing difficult and complex patterns.

Babies are born with about 300 bones...

but by the time they reach adulthood, these bones will have fused together to form 206 bones. Babies are born with more cartilage than bone. With time, the cartilage is replaced by bone matrices, and the calcium salts babies get from their diets are laid to form hardened bone through the conversion of cartilage into bone.

It's Shorts Weather

Just As Soon As The Snow Melts

Wisconsinites have a superhuman tolerance to cold. Don't be surprised if you see someone busting out the shorts and flip flops on a forty degree day.

Don't You Dare Make Fun Of This State

Wisconsinites are fiercely proud of where they're from. If you're an out-of-towner, show them some respect and soak up all the awesome things Wisconsin has to offer. Of course, a few jokes about the way they say "bag" are acceptable.

Inga's
*Swedish Massage
& Body Sculpting*

A massage is a great way to give yourself something special in ways of relaxation and tension release. It also does so much more! It can reduce pain, muscle spasms, depression and anxiety. It can help increase energy, sleep quality, immunity, flexibility along with improved circulation and concentration.

If you haven't tried a Swedish massage, now is the time.

Take time for yourself.

FUN FACTS

SPORTS EDITION

- Green Bay is the smallest city in the U.S. to host a professional sports team and the only team in The NFL to be owned by the fans.
- Green Bay is known as "Titletown" to football fans everywhere. 12-time National Champions.
- Green Bay Packers call Lambeau Field home. Our stadium has been voted "best stadium experience" by Sports Illustrated for two years straight (2007 & 2008).
- Packers Training Camp runs five weeks starting at the end of July. Practices are open to the public, and usually have 2,000 spectators per practice. Young fans line up near the stadium with their bikes, waiting for the players to emerge. Players ride bikes to the practice field, while the kids run a long side with the player's helmet.
