CLIMATE

While Green Bay is often described as the frozen tundra, residents know that the overall climate is more temperate with its variability and distinctive weather patterns across the seasons. Extended periods of humid or subzero temperatures are uncommon due to the moderating effect of Lake Michigan so close by.

Well-seasoned Wisconsinites surprise newcomers with their ability to continue "business as usual" in the bad weather. Only in the most severe cases does the weather impact business.

The first kindergarten classes in the U.S.

Were held in Watertown in 1856 at the home of a German couple. Teachers who are in charge of children with mental and physical disabilities can benefit from chess. It is a game that does not discriminate, and no matter what level you learn to play, it helps children to understand that 'losing' the game is as valuable as winning.

Wisconsin's state symbol...

the badger, doesn't refer to the animal but instead to the 1820s lead miners who traveled for work and dug tunnels to sleep in and keep warm, much like a badger. Celebrate the name on gameday with the UW-Madison Wisconsin Badgers!

FUN FACTS

Wisconsin banned the sale and use of margarine....

Wisconsin banned the sale and use of margarine from 1895 to 1967, and while the ban was lifted, some restrictions on margarine remain today. It's still illegal for a restaurant to serve margarine as a butter substitute unless the customer specifically requests it.
